Children are a sacred trust, especially when they are in our care. As child abuse cases continue to increase in today's society, we have a responsibility as Church to advocate for the well-being of our children.

So that we may provide the safest environment possible in our parish and diocesan programs, diocesan policy requires us to have a file on all employees and volunteers working directly with minors.

Please answer the questions below. All information will remain confidential. (This information will be updated every year.)
